

DON'T LET ANYTHING BE A BARRIER.

CHRISTINE NAUS

“

“Don't let anything be a barrier,” she said. “You might have to find other ways to do certain things, but that's part of the challenge and part of the fun.”

Christine Naus is a lower limb amputee, who regularly hunts and enjoys time at the shooting range. At the age of 26 Christine was diagnosed with cancer in her foot. Unfortunately the only treatment available to her was amputation. After being issued with a prosthetic leg and learning how to use it, Christine went looking for a sport. Not being one for team sports, she gave the shooting sports a go and has been participating ever since. Christine now helps farmers by eradicating pests on their properties. While she is faced with some challenges when field shooting, Christine sometimes surprises herself with her abilities.
