

# EVER-PATIENT MENTOR

ROB LORICCO

“

*“We get new shooters who have a firearm come onto the range and tell us they need assistance,” Rob said. “That’s a joy for us Range Officers. We show them the safest way to use that firearm and when they leave the range they can’t thank us enough.”*

## FACES OF SSAA

Rob Loricco works as a volunteer range officer at SSAA Victoria’s Eagle Park Range. He has been shooting for more than 50 years and just wants to put a smile on people’s faces now. Rob is blind in one eye and he credits his disability for teaching him patience and understanding. He wants to ensure everyone at the range enjoys their time and goes home feeling good.
