(DATE)

Sir/madam

I write in relation to your request for a submission in support of my application to acquire a Category B longarm (Ref: XXXXXX). Your letter queries the number of Category B firearms I have against my licence and the need for an additional firearm.

I am a firearms enthusiast/hunter/target shooter who shoots regularly in a broad range of disciplines.

The firearm subject to this Permit to Acquire is different to firearms already in my possession as it: has a different sight configuration/a different calibre more suited to the task I wish to undertake/is necessary for a competition category for which a specific firearm is required/satisfies the special application of sports shooting I'm interested in.

I have storage facilities which meet the legal requirements to accommodate the requested firearm.

Kind regards

(Your name and signature)
